

Trees for Hawkes Bay Schools, Marae and Communities

Genesis Reforestation Project Fund Application

To ensure Genesis Reforestation Project receives the information needed to assess your application, please check that you have provided information in three parts as outlined below:

1. Covering page
2. Project description
3. Supporting information

Post applications to:
Genesis Reforestation Project
c/ Smart
PO Box 8879
Havelock North

1. Applicants details

Please provide the following details as you covering page:

- School, marae or community name
- Address
- Phone and fax number
- Email and website details
- Name and position of contact person

2. Project description

We encourage as much student, whanau and community participation and vision as possible. The project can be for the establishment of a small Organic Orchard / Food Forest or establishing a new Native planting site.

- Please outline the details of your planting project (i.e. what you are trying to achieve with this project)
- Describe site (i.e. windy, steep, sheltered, irrigated, coastal etc)
- Provide a simple visual plan

Note we endeavour to supply eco sourced organic and hardy species.

3. Supporting information

- Management – who is leading the project and how will ongoing care be managed?
- Responsibilities of successful applicant. It is important that the project is monitored and recorded, including photographs, stories etc and that we are provided with a copy of this record.

Please contact the Programme Organiser for further information
